THE SPIRIT OF CLASSIC ROCK

Paint a picture of a classic rock show in your mind. Lighters raised to the sky, electricity in the air as the beams of light start to fill the stage. Anticipation rises, as the fervor of the crowd comes to life. Suddenly, you feel an adrenaline rush, as a power chord cuts through the night and transports you back in time.

ROCK UNITED brings a supercharged, bombastic, live show from the first note to the encore!

Not only are these stellar musicians flying the flag of rock, but they've lived it! On drums, Sandy Gennaro's thunderous beat has graced stages all around the world with superstars such as Joan Jett, Pat Travers, Johnny Winter, The Monkees, Bo Diddley and Cyndi Lauper.

On bass guitar, Lee Beverly is best known for backing classic rock legend Eddie Money for 19 years, not to mention Edgar Winter, Starship and Gary Wright.

On guitars, Ricky Dover Jr. channels a mix of Jimmy Page, and Ronnie Wood, while Josh Dutiot, who's worked with members of Motley Crue, Cinderella, Aerosmith and Halestorm presents his amazing technical prowess. Working in tandem, as a team, these two fiery professionals ignite the classic double guitar attack of **ROCK UNITED**.

Hosting the rock party is the phenomenal and dynamic singer Greg Mangus, recently considered as a replacement for lead singer Brian Johnson of AC/DC. Greg has been heard in movie soundtracks & TV themes, such as the NFL on CBS, and is a successful songwriter.

He has been fronting rock bands for over 40 years and brings his swagger, tailored sophistication, and razor sharp vocals to top the pinnacle of **ROCK UNITED**.
