Renegades & Vagabonds

Written by Cindy Alter

To all dreamers, believers, renegades, music-lovers, faith-holders, vagabonds and such the like - this is for you. My journey has been incredible, filled with adventures and fantastic stories. If this is to be my coup de grâce, I believe it's a fitting way to close this chapter. But knowing myself, it's likely just the beginning of another series of songs and music before I can truly say, 'I'm done!' There's a survivor in here and for now, she's doing well!

1-PILOT OF MY DREAMS

This idea came to me about 4 years ago, during Covid, when I realized how much we are governed by the world around us, and if that world is not co-operating, somehow, we have to keep the faith and believe that we can be the Captain's of our ship, even if the world around us is falling apart.

2-TAKING FLIGHT**

Holding onto the belief that there may be something bigger than us, protecting us and guiding us through the craziness that life brings.

3-SHE'S DOING WELL

This is a song of confession and redemption. It speaks about having done some good and some not so good in our lives, acknowledging that this the human condition, and saluting the survivor in us all. We can do tough things and still be okay!

4-WE NEED LOVE

I think at times we feel hopeless, and in these times, somehow, we have to acknowledge what would help us out of that dark place, and that we have the power to make different choices, and, we choose LOVE.

5-RENEGADE

Sometimes people get lost in rebellion. They are forced by circumstance to follow a path of self-destruction, and no matter what they do, they still end up running from their past mistakes, chasing some dream and realizing that it wasn't worth it in the end.

6-WINCHESTER COUNTY LINE**

A story about a hard-life town, people just keeping afloat, and still hoping that they will find peace. It is my salute to the rawness of a place like this. Brittle and unrelenting.

7-I'VE BEEN ME**

I started this song in 1998, I was coming out of a long stretch in an abusive relationship, and I wanted to write about me finding myself again. It took me twenty six years to come back to the song and re-write the chorus, and that was the way I exacted my revenge. Sometimes it takes longer than we think.
